SUNPOWER

A comprehensive warranty, for peace of mind

Whether a Residential or Commercial panel, the 30-year warranty applies to all SunPower modules!

Comprehensive
Power, Product & Service
coverage for 30 years

SunPower panels are manufactured for long-term durability, covering defects related to workmanship and materials for a full 30 years, versus some manufacturers that can go as low as 12 years on their warranty.

SunPower panels also account for the repair, replacement or refund of any defective panel for 30 years, with removal, shipping and installation included in applicable countries.

All our warranties abide by Australian Consumer Law.
